

*Invitation to 66th Session
Commission on the Status of Women*

***Women's Health and Well-Being:
Impact of the Environment and Non-Communicable Diseases (NCDs)***

Co-sponsored by

Permanent Mission of Thailand to the United Nations; International Council of Women (ICW-CIF); Communications Coordination Committee for the United Nations (CCCUN); Pan Pacific and South East Asia Women's Association International (PPSEAWA);

This event is the continuation of a long-term agenda to integrate women's life course healthcare into the UN agenda with a focus on Universal Health Coverage (UHC), especially in context of the greatest burdens of global diseases. These include the major non-communicable diseases (NCDs), specifically, cardiovascular disease, cancer, diabetes, respiratory illnesses, and mental health and neurological illnesses. With the challenges of Covid-19, NCDs have taken center stage in relevance to healthcare. With the increasing concerns of the consequences of the impact of climate change and the environment, the major role of women in family health, and providing frontline community healthcare, the importance of UHC and women's health and well-being must be addressed in a systematic and cohesive manner. This event will describe current examples and recommendations for the path forward.

Wednesday, 16 March 2022

3:00 PM – 4:30 PM Eastern

CSW66 Zoom Event

Contact/RSVP by 14 March to: undisclose@optonline.net

Zoom link will be sent to registrants
