

Implementing the Outcome of the 2018 High Level Meeting on NCDs: Focus on Women's & Children's Health and Well-Being

Co-sponsored by

Permanent Mission of Jamaica to the United Nations; Permanent Mission of Thailand to the United Nations; WHO Office at the United Nations, New York; NGO Committee on Mental Health; International Council of Women (ICW-CIF) Communications Coordination Committee for the United Nations (CCCUN); Sigma Theta Tau International, International Psychoanalytical Association, American Psychiatric Association; Nightingale Initiative for Global Health, Dianova International; International Association of Medical Women; International Society for the Study of Trauma and Dissociation; Pan Pacific and South East Asia Women's Association (PPSEAWA Int'l)

Organized by

Permanent Mission of Jamaica to the United Nations; Global Mental Health and NCDs Working Group of the NGO Committee on Mental Health (CMH) at the UN; International Council of Women (ICW-CIF)

This annual event of the Global Mental Health and NCDs Working Group of the CMH focuses on non-communicable diseases (NCDs), such as heart disease, cancer, diabetes, and respiratory illnesses, which are the greatest burden of disease worldwide. Mental health conditions, such as depression are now recognized as the 5th major NCD and are also significant cross-cutting factors for the other NCDs. This event will discuss strategies and successful projects for the implementation of the 2018 UNGA High Level Meeting outcome document, including integrating mental and physical health to prevent and manage NCDs; examining a large Australian government study on prevention and control of diabetes and heart disease in women; discussing a replicable community home health outreach project for the prevention of NCDs related to air pollution and natural disasters; and utilizing embedded mental health services in the treatment of children with cancer and their families. Also announced will be the ABS special issue on Women, Health, and NCDs, a joint effort of the ICW-CIF and the WHO GCM/NCD.

Thursday, November 8, 2018
